

DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Monday, 30 November 2020 at 05:31 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels are generally expected to be Low across the UK today, although isolated patches of moderate are possible near urban centres. However, these should gradually improve through the course of the day as it becomes increasingly breezy.

Tomorrow: Generally Low levels of air pollution are expected across the UK on Tuesday, but pockets of Moderate pollution may develop near urban areas in England and Wales, as winds fall light.

Outlook: Low levels of air pollution are expected across the UK through the outlook period, as it becomes increasingly unsettled with showers or longer spells of rain and brisk winds.
